Twin Oast is a beautiful 60-acre farm estate, featuring forested areas, stone fruit orchards, and home-grown produce. In 2011, the Smith family started this journey. Quintin and Donna Smith have been hard at work taking what was an abandoned wasteland of weeds and restoring it to its agricultural roots. When they started, the only remnants of the old farm were 10 cherry trees. Since then, they have planted hundreds of trees, including peaches, apricots, cherries, apriums, and pluots. The farm has been landscaped in a way that shows off its natural topography. Rolling hills, terraced fruit trees, and natural caves are just the beginning of what makes this farm so magnificent.
